

Coronavirus (COVID-19) Update: Portage Golf Club

Like all Canadians, the Board of Directors & the PGC Management Team is navigating their way through the Coronavirus Pandemic. The spread of the virus in Canada and around the world has raised concerns for everyone in these trying times. Portage Golf Club values the well-being of our staff and customers and we want you to know that your health & safety will remain our top priority as this situation continues to evolve.

At this point in time we are preparing plans for each of the two main possibilities. First of all, we are determining what measures will be necessary to maintain the course if we are required to stay closed, as has been mandated by government agencies in several other provinces. Secondly, we are putting together extensive protocols and procedures for the possible opening of the course that limit contact and touch points and focus on social distancing measures, as well as increased cleaning and sanitation. Based on current information, we need to be prepared for both of these scenarios.

As we all know, this situation is very fluid so we will continue to adapt our strategies based on information as it becomes available and we will continue to monitor the recommendations of government and health officials as well as industry best practices and pass along relevant notices and updates as necessary.

We thank everyone for their understanding and we hope that you stay healthy and will continue to do your part to flatten the curve.

Sincerely,

Portage Golf Club Board of Directors & Management Staff
